These are the mental phenomens of the disease, for which the invalid cannot be held justly responsible, but they occasion much household discomfort. It is to the interest of the home circle, it is essential to family harmony as well as to the rescue of the principal sufferer irom a state not far removed from incipient insanity, that these symptoms of mental disturbance be promptly removed. This can only be done by removing their physical cause, a derangement of the functions of the stomach and its allied viscers, the liver and the bowels.
